

Serial No. 10/606,441  
DeClerck et al  
Case No. CE10654R

**REMARKS**

Reconsideration of the above-referenced application is respectfully requested in view of the above amendments and these remarks. Claims 2-4, 7-9, 12-14 and 17-19 are currently pending.

Applicants respectfully disagree with the Examiner's rejections set forth in the present office action. However, desiring to expedite the issuance of a patent for the present invention and in view of the Examiner's indications of amendments that would confer allowance, the Applicants have sought to amend the claims in accordance with the Examiner's suggestions. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record.

As the Applicants have overcome all substantive rejections and objections given by the Examiner and have complied with all requests properly presented by the Examiner, the Applicants contend that this Amendment, with the above discussion, overcomes the Examiner's objections to and rejections of the pending claims. Therefore, the Applicants respectfully solicit allowance of the application. If the Examiner is of the opinion that any issues regarding the status of the claims remain after this response, the Examiner is invited to contact the undersigned representative to expedite resolution of the matter.

Please charge any fees associated herewith, including extension of time fees, to 50-2117.

Respectfully submitted,  
DeClerck, Daniel J., et al.
